## Who we are at Enchantmints:

We believe that children require gentleness and warmth to find their path in life. By creating playthings of beauty, truth and goodness, we devote ourselves to children so they may walk into the future with kindness and confidence. At Enchantmints we focus on the inner lives of children -- for it's certain that these inner/imaginative lives are of utmost importance.

Enchantmints provides refreshing alternatives to the often harsh toys of the mass market. Great care is taken with each product, from concept and construction to shape and color selection (adults can handle hard forms and intense colors; we think children need the shapes and colors of Monet, Raphael or Fra Angelico). We believe every impression that enters a young child's heart and mind remains for a lifetime. We take our designs seriously.

Enchantmints has received many prestigious awards. Most recently, the Fairy Forest Lodge received the 2008 Toy of the Year (T.O.Y.) Award from Family Fun Magazine.
